THERE will be Four Eclipses this Year, Two of the Sun, and two of the Moon.

The first will be of the Moon, upon the 5th. of *March* at 8 min. after 7 at night, and so will be seen of us; and half the Moons body will be obscured.

The second is of the Sun, upon the 21 of *March* at 1 in the Morning; it will be but a very small Eclipse, scarcely visible to us.

The third Eclipse will be of the Moon on the 30 of *August*, neer 11 in the Forenoon; and therefore will be invisible to us in *England*.

The Fourth Eclipse will be of the Sun, on the 13th. day of *September*, at 41 min. after 9 in the morning, and 10 parts of 12 of the Suns body will be darkned; it will be a great Eclipse, and worthy the observing.

The beginning of the four Quarters of this Year 1699.

THE Spring begins the 10th of *March* at 21 min. after 11 in the forenoon.

Summer begins the 11th of *June*, 46 min. after 7 in the morning.

Rules

Rules concerning Husbandry.

WHen you would Plant or Graft, consider where the wind bloweth, if it be in the South, it is very good for that purpose, but if in the North or East it is not good.

It is good to Plant or Graft generally the Moon encreasing in these Signs, *Taurus* or *Aquarius*, in the beginning of the Spring, or latter end of Harvest.

Plant Trees for continuance, when the Moon is in *Taurus*, *Leo*, or *Aquarius*.

Cut Timber to have it sound, in *December* or *January*. In the wane of the Moon in *Aquarius* or *Pisces*.

Prune Trees, & pull off the Moss in the Month of *February*.

Plash Hedges, and lop Trees for Fewel, that the heads may the sooner grow again, when the Moon is in *Aries* or *Libra*, and in her increase.

Set young Quickſets from *September* to *March*.

Remove young Trees in the last quarter of the Moon when she is in *Aries*, *Libra*, *Scorpio*, and in these Months *September*, *November*, *February*.

Set Vines in *February*, *March*, or *September*, especially the Moon in *Aries*, *Libra*, *Scorpio*, in her increase.

Set Rose-Trees in the midst of *February*, the Moon encreasing.

Cut or Prune Trees in *March* or *April*, the Moon in *Taurus*, *Virgo*, or *Capricorn*.

Gather Fruit, as Apples, Pears, and the like, at the full Moon in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung Ground to prevent growing of Weeds, the Moon decreasing.

Sow Carvet-seeds about the end of *February*, or the beginning of *March*, the Moon encreasing. Also sow Onions and Leeks in *February* or *March*, at the wane of the Moon.

Sow Cucumbers and Melons in *February* or *March*, or *June* in a hot fair day.

Sow Parsley, Fennel, and Aniseed, in *February* or *March* at the full of the Moon.

Sow Marjoram, Violets, Time, Rosemary, and Lavender, in *February*, *March*, or *April*, in the increase of the Moon.

Sow Gilliflowers and Wall-flowers, in *March* or *April*, in the old of the Moon.

Sow Hyssop and Savory in *March*, when the Moon is old.

Sow double Marigolds in *February* or *March*, in the increase of the Moon.

Shear Sheep at the increase of the Moon.

The best time to Geld Cattel the Moon being in *Aries*, *Sagitarius*, or *Capricorn*.

Of Blood-letting, and some other Physical Observations.

IN Youth let Blood from the change to the first quarter: in Middle age from the first quarter to the full: in Elder years from the full to the last quarter: in Old age, from the last quarter to the change. But know, that under the Age of 14 and above the Age of 70 it is not good to bleed at all.

Again, in the *Canicular*, or Dog-days, it is very hurtfull to take any *Physick* at all, unless there be great need: and indeed *Necessity hath no Law*: Wherefore in such a case, the disease being desperate, the cure must be adventured.

Take a Purgation when the Moon is in Trine, or Sextile aspect with *Venus*, decreasing in any of these three Signs, *Cancer*, *Scorpio*, or *Pisces*, and it will be sure to work the better, because when a moist Planet, in a moist Sign hath such an aspect, the humours in the Body are then stirred up and down, and so the better purged out; wherefore in this case, it cannot be amiss to prepare humours by something that is lenative: and let this be done whilst the Moon is either in *Gemini*, *Libra*, or *Aquarius*.

Take a Vomit, that it may work throughly, when the Moon

is in *Aries*, *Taurus*, or *Capricorn*: and know that the aspects or the Moon with *Saturn*, or *Mars*, or the Moon in *Leo*, ought to be eschewed in the taking of Medicines.

Finally, if necessity urge no haste, these observations are expedient: for it is a plain truth, that the change of weather upon differing aspects, doth greatly change and alter mens bodies.
